

**INNOVATIVE
CHEMICAL
CORPORATION**

7769 95th Street South
Cottage Grove, MN

SAFETY DATA SHEET

Revision Date: 9/1/2015
Emergency Phone: 1-800-535-5053 (Infotrac)

Section 1: Identification

Product Name: Built Laundry Detergent
Chemical Type: Liquid

Code: 98PBL00
Manufacturer/Supplier:
Innovative Chemical Corporation
7769 95th Street South
Cottage Grove, MN 55016
651-649-1762

Section 2: Hazard(s) Identification

GHS Classification

Skin corrosion/irritation	Category 1A
Serious eye damage/eye irritation	Category 1

GHS Label element

Signal word: Danger
Hazard statements: Causes severe skin burns and eye damage.

Precautionary Statements

Prevention: Wash skin thoroughly after handling. Wear protective gloves/protective clothing/ eye protection/ face protection.

Response: IF SWALLOWED: rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/ physician. Wash contaminated clothing before reuse.

Storage: Store locked up.

Disposal: Dispose of contents/ container to an approved waste disposal plant.

Other hazards: None known

Section 3: Composition/Information on Ingredients

CAS number/other identifiers

Hazardous Components		
Chemical Name	%weight	CAS

sodium hydroxide	1310-73-2	10-30
poly(oxy-1,2-ethanediyl), a-(2-propylheptyl)-hydroxy-	160875-66-1	10-30
alcohol ethoxylate	68551-12-2	10-30

Any concentration shown as a range is to protect confidentiality or is due to batch variation. There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational limits, if available are listed in Section 8.

Section 4: First-Aid Measures

Description of first aid measures

Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.
Skin contact	Wash off immediately with plenty of water for at least 15 minutes. Use a mild soap if available. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.
Inhalation	Rinse mouth with water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.
Ingestion	Remove to fresh air. Treat symptomatically. Get medical attention if symptoms occur.
Protection of first-aiders	If potential for exposure exists refer to Section 8 for specific personal protective equipment.
Notes to Physician	Treat symptomatically

See toxicological information (Section 11)

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable extinguishing media	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Specific hazards arising from the chemical	Not flammable or combustible.
Hazardous combustion products	Decomposition products may include the following materials: Carbon oxides nitrogen oxides (NOx) Sulfur oxides Oxides of phosphorus
Specific fire-fighting methods	Use personal protective equipment.
Special protective equipment for fire-fighters	Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal precautions	Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.
Environmental precautions	Do not allow contact with soil, surface or ground water.
Methods for cleaning up	Stop leak if safe to do so. Contain spillage, and then collect with noncombustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.

Section 7: Handling and Storage

Precautions for safe handling

Handling	Do not ingest. Do not get in eyes, on skin, or on clothing. Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. Use only with adequate ventilation. Wash hands thoroughly after handling.
Storage	Do not store near acids. Keep out of reach of children. Store in suitable labeled containers.
Storage temperature	10 °C to 50 °C

Section 8: Exposure Controls/Personal Protection

Control parameters

Ingredient	CAS-No.	Forms of exposure	Permissible concentration	Basis
sodium hydroxide	1310-73-2	Ceiling	2 mg/m ³	ACGIH
		Ceiling	2 mg/m ³	NIOSH REL
		TWA	2 mg/m ³	OSHA Z1

Appropriate engineering controls	Effective exhaust ventilation system. Maintain air concentrations below occupational exposure standards.
---	--

Personal protective equipment

Eye protection	Safety goggles. Face-shield.
Hand protection	Wear the following personal protective equipment: Standard glove type. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Skin protection	Personal protective equipment comprising: suitable protective gloves, safety goggles and protective clothing.
Respiratory protection	When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.
Hygiene measures	Handle in accordance with good industrial hygiene and safety practice. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

Section 9: Physical and Chemical Properties

Physical state	Liquid
Color	Clear
Odor	None Added
pH	14
Flash point	Not Applicable
Odor Threshold	No data available
Melting point/freezing point	No data available
Initial boiling point and boiling range	> 100 °C
Evaporation rate	No data available
Flammability (solid, gas)	No data available
Upper flammability limit:	No data available
Lower flammability limit:	No data available
Vapor pressure	No data available
Relative vapor density	No data available
Relative density	1.207 - 1.275
Water solubility	soluble
Solubility in other solvents	No data available
Partition coefficient: noctanol/water	No data available
Autoignition temperature	No data available
Thermal decomposition	No data available
Viscosity, kinematic	2,018.131 mm ² /s (40 °C)
Explosive properties	No data available
Molecular weight	No data available
VOC	No data available

Section 10: Stability and Reactivity

Stability	Stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	None known.

Materials to avoid	Acids Metals Organic materials
Hazardous decomposition products	Decomposition products may include the following materials: Carbon oxides nitrogen oxides (NOx) Sulfur oxides Oxides of phosphorus

Section 11: Toxicological Information

Information on likely routes of exposure

Inhalation, Eye contact, Skin contact

Symptoms

Eyes	Causes serious eye damage.
Skin	Causes severe skin burns.
Inhalation	May cause nose, throat, and lung irritation.
Ingestion	Causes digestive tract burns.
Chronic Exposure	Health injuries are not known or expected under normal use

Acute toxicity

Eye contact	Redness, Pain, Corrosion
Skin contact	Redness, Pain, Corrosion
Inhalation	Respiratory irritation, Cough
Ingestion	Corrosion, Abdominal pain

Toxicity

Acute oral toxicity	Acute toxicity estimate : > 5,000 mg/kg
Acute inhalation toxicity	no data available
Acute dermal toxicity	no data available
Skin corrosion/irritation	no data available
Serious eye damage/eye irritation	no data available
Respiratory or skin sensitization	no data available
Carcinogenicity	no data available
Reproductive effects	no data available
Germ cell mutagenicity	no data available
Teratogenicity	no data available
STOT-single exposure	no data available
STOT-repeated exposure	no data available
Aspiration toxicity	no data available

Ingredients

Acute Dermal toxicity	alcohol ethoxylate LD50 rabbit: > 2,000 mg/kg
-----------------------	--

Section 12: Ecological information

Ecotoxicity

Environmental Effects	Harmful to aquatic life.
-----------------------	--------------------------

Product

Toxicity to fish	no data available
Toxicity to daphnia and other aquatic invertebrates	no data available
Toxicity to algae	no data available

Ingredients

Toxicity to fish	alcohol ethoxylate 96 h LC50 Fish: 1.5 mg/l
------------------	--

Ingredients

Toxicity to daphnia and other aquatic invertebrates	48 h EC50: 40 mg/l poly(oxy-1,2-ethanediyl), a-(2-propylheptyl)-w-hydroxy- 48 h EC50 Daphnia : 10 mg/l
---	---

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Mobility in soil

Not available.

Other adverse effects

Not available.

Section 13: Disposal considerations

Disposal methods

The product should not be allowed to enter drains, water courses or the soil. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.

Disposal considerations

Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not reuse empty containers.

RCRA - Resource Conservation and Recovery Authorization Act Hazardous waste

D002 (Corrosive)

Section 14: Transport information

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

Section 15: Regulatory information

EPCRA - Emergency Planning and Community Right-to-Know

CERCLA Reportable Quantity

Ingredients	CAS-No.	Component RQ (lbs)	Calculated product RQ (lbs)
sodium hydroxide	1310-73-2	1000	4441

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 hazards

Acute Health Hazard

SARA 302

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313

SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

California Prop 65

This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

The ingredients of this product are reported in the following inventories:

- 1907/2006 (EU) : not determined
- Switzerland. New notified substances and declared preparations : not determined
- United States TSCA Inventory : On TSCA Inventory
- Canadian Domestic Substances List (DSL) : All components of this product are on the Canadian DSL
- Australia Inventory of Chemical Substances (AICS) : not determined
- New Zealand. Inventory of Chemical Substances : not determined
- Japan. ENCS - Existing and New Chemical Substances Inventory : not determined
- Japan. ISHL - Inventory of Chemical Substances (METI) : not determined

Korea. Korean Existing Chemicals Inventory (KECI) : not determined
 Philippines Inventory of Chemicals and Chemical Substances (PICCS) : not determined
 China. Inventory of Existing Chemical Substances in China (IECSC) : not determined

Section 16: Other information

**Hazardous Material
 Information System (U.S.A.):**

Health	*3
Flammability	0
Physical hazards	0

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on SDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J.J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
