

7769 95th Street South Cottage Grove, MN 55016

SAFETY DATA SHEET

Revision Date: 8/12/2015

Emergency Phone: 1-800-535-5053 (Infotrac)

Section 1: Identification

Product Name: Vinyl & Tire Dressing Code: 98PVT00

Chemical Type: Liquid Manufacturer/Supplier:

Innovative Chemical Corporation

7769 95th Street South Cottage Grove, MN 55016

651-649-1762

Section 2: Hazard(s) Identification

GHS Classification

Not a hazardous substance or mixture

Label elements

Signal word: None Given

Hazard statements: Not a hazardous substance or mixture.

Carcinogenicity:

IARC	No component of this product present at levels greater than or equal to 0.1% is identified as probable,	
	possible or confirmed human carcinogen by IARC.	
ACGIH	No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen	
	or potential carcinogen by ACGIH.	
OSHA	No component of this product present at levels greater than or equal to 0.1% is identified as a carcinog	
	or potential carcinogen by OSHA.	
NTP	No component of this product present at levels greater than or equal to 0.1% is identified as a known o	
	anticipated carcinogen by NTP.	

Section 3: Composition/Information on Ingredients

Substance or mixture: Mixture

Other means of identification: Not available.

CAS number/other identifiers

CAS number: Not applicable.

Hazardous Components		
Chemical Name	%weight	CAS

No hazardous ingredients	

Any concentration shown as a range is to protect confidentiality or is due to batch variation. There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational limits, if available are listed in Section 8.

Section 4: First-Aid Measures

Description of first aid measures

General advice	Do not leave the victim unattended.	
If inhaled	If unconscious place in recovery position and seek medical advice. If symptoms persist, call a physician.	
In case of skin	In case of contact, immediately flush skin with plenty of water. Take off contaminated clothing and shoes	
contact	immediately. Get medical attention if irritation develops and persists. Wash contaminated clothing	
	before re-use.	
In case of eye	Remove contact lenses. Protect unharmed eye. If eye irritation persists, consult a specialist.	
If swallowed	f swallowed Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to	
	unconscious person. If symptoms persist, call a physician.	

See toxicological information (Section 11)

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable extinguishing media	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Unsuitable extinguishing media	Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	Silicon oxides, Smoke, Carbon dioxide (CO2), Carbon monoxide
Specific extinguishing methods	Use extinguishing measures that are appropriate to local circumstances and the
	surrounding environment.
Further information	Standard procedure for chemical fires. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.
Special protective equipment for firefighters	Wear self-contained breathing apparatus for firefighting if necessary.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal precautions,	Use personal protective equipment. Ensure adequate ventilation. Evacuate personnel to safe
protective equipment and	areas. Material can create slippery conditions.
emergency procedures	
Environmental precautions	Prevent product from entering drains. If the product contaminates rivers and lakes or drains
	inform respective authorities.
Methods and materials for	Keep in suitable, closed containers for disposal. Clean contaminated floors and objects
containment and cleaning up	thoroughly while observing environmental regulations. Wipe up with absorbent material (e.g.
	cloth, fleece).

Section 7: Handling and Storage

Precautions for safe handling

Advice on safe handling	For personal protection see section 8. Smoking, eating and drinking should be prohibited in
	the application area.
Conditions for safe storage	Containers which are opened must be carefully resealed and kept upright to prevent leakage.
	Electrical installations / working materials must comply with the technological safety
	standards.
Materials to avoid	Do not freeze.

Section 8: Exposure Controls/Personal Protection

Control parameters

Components with workplace control parameters

Contains no substances with occupational exposure limit values.

Personal protective equipment

Respiratory	No personal respiratory protective equipment normally required.	
Hand protection	Skin should be washed after contact. For prolonged or repeated contact use protective	
Remarks	gloves. The suitability for a specific workplace should be discussed with the producers of the	
	protective gloves.	
Eye protection	Safety glasses	
Skin and body	Choose body protection according to the amount and concentration of the dangerous	
protection	substance at the work place.	
Protective	Wear suitable protective equipment. When using do not eat, drink or smoke.	
Hygiene measures	General industrial hygiene practice.	

Section 9: Physical and Chemical Properties

Physical state Liquid Color Clear Odor Mild Cherry **Odor threshold** Not available 6.5-8.5 рΗ **Boiling Point** > 100 °C **Flash Point** > 100 °C **Evaporation rate** Not available **Upper explosion** Not available limit Lower explosion Not available limit Vapor pressure Not available **Relative vapour** Not available density **Density** 0.99 - 1.019 g/cm3 Easily soluble in cold and hot water.

Solubility

Partition Not available

coefficient: noctanol/water

Auto-ignition Not available

temperature

Thermal Not available

decomposition

Viscosity Not available

Section 10: Stability and Reactivity

Reactivity: Stable

Chemical stability: Stable under normal conditions.

Possibility of hazardous Stable under recommended storage conditions. No hazards to be specially mentioned.

Acute dermal toxicity		Acute toxicity estimate : > 5,000 mg/kg	
		Method: Calculation method	

Skin corrosion/irritation

		· · · · · · · · · · · · · · · · · · ·
	Remarks	no data available

Serious eye damage/eye irritation

	<u> </u>
Remarks	no data available

Respiratory or skin sensitisation

Not available

Germ cell mutagenicity

Not available

Carcinogenicity

Not available

Reproductive toxicity

Not available

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration toxicity

Not available

Further information

Not available

Section 12: Ecological information

Ecotoxicity

Not available.

Persistence and degradability

Not available.

Bioaccumulative potential

Partition coefficient	Remarks
noctanol/water	no data available

Mobility in soil

Soil/water partition coefficient (Koc): Not available

Other adverse effects: no data available

Regulation	40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone -	
	CAA Section 602 Class I Substances	
Remarks	Warning: Manufactured with /\$/, a substance which harms public health and	
	environment by destroying ozone in the upper atmosphere.	
Additional ecological	An environmental hazard cannot be excluded in the event of unprofessional	
information	handling or disposal., Harmful to aquatic life with long lasting effects.	

Section 13: Disposal considerations

Waste from residues

Dispose of in accordance with local regulations. The product should not be allowed to enter drains, water courses or the soil.

Section 14: Transport information

Regulatory info	UN Number	Proper shipping name	Classes	PG	Environmental hazards	Additional info

CERCLA Reportable Quantity

Components	CAS-No	Component RQ (lbs)	Calculated product RQ (lbs)
acetaldehyde	75-07-0	1000	*

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards

No SARA Hazards

SARA 302

SARA 302: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313

SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

California Prop 65

WARNING! This product contains a chemical known to the State of California to cause cancer.

The components of this product are reported in the following inventories:

DSL This product contains the following components that are not on the Canadian DSL nor NDSL.

AICS Not in compliance with the inventory
NZIOC Not in compliance with the inventory
PICCS Not in compliance with the inventory
IECSC Not in compliance with the inventory

Inventory Acronym and Validity Area Legend:

AICS (Australia), DSL (Canada), IECSC (China), REACH (European Union), ENCS (Japan), ISHL (Japan), KECI (Korea), NZIOC (New Zealand), PICCS (Philippines), TSCA (USA)

Section 16: Other information

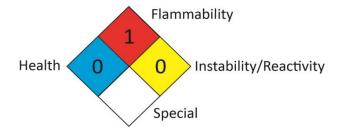

Hazardous Material Information System (U.S.A.):

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on SDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J.J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.

This reprinted material is not the complete and official position of the National Fire Protection Association, on the referenced subject which is represented only by the standard in its entirety.

Copyright ©2001, National Fire Protection Association, Quincy, MA 02269. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactivity hazards of chemicals. The user is referred to certain limited number of chemicals with recommended classifications in NFPA 49 and NFPA 325, which would be used as a guideline only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.

Notice to reader

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.

Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist
