

# REVIVE

## HIGH SPEED SPRAY BUFF

### DATA SHEET

#### Product Description:

Revive is a ready to use spray buff cleaner, maintainer and polisher for use with spray bottle or spray device attachments on all high speed single disc rotary floor machines. Can be used efficiently on any Protegé finish to clean and restore to its original brilliance. When used with high speed buffering equipment, Revive generates heat to cause a thermodynamic reaction. This reaction creates a new surface which is clean, hard and durable and exhibits gloss never before possible with conventional spray buff compounds and equipment. For best results, use with 350 RPM and up.

#### Features:

- Formulated for use with 175-350 RPM spray buffering programs.
- Provides a hard, durable, high gloss shine.
- All raw materials used for production undergo a thorough quality control process before being used for manufacturing high quality products.

#### Directions:

Floor must have 3-4 coats of a high quality floor finish to provide a good base. Make sure floor base is fully cured before applying. Prior to usage, it is very essential that floor is clean of all loose soil so that dirt is not embedded in floor. Using a trigger spray or other suitable device, apply undiluted as a fine mist in a small area directly in front of the floor machine with buff pads and buff to a lustrous shine. Use as a regular floor care program to reduce the frequency of recoating while maintaining a wet look.

#### Specifications:

#### Available In:

Color:	White	55 Gallon Pail	Item# 98PRV55
Odor:	None Added	30 Gallon Pail	Item# 98PRV30
pH:	8.7	5 Gallon Pail	Item# 98PRV05
Physical State:	Liquid	4x1 Gallon Bottles	Item# 98PRV0G

#### First Aid:

Inhalation: Remove to fresh air. Skin: Wash with soap and water. Eyes: Flush with water for 15 minutes. If irritation persists, consult physician.  
Internal: If ingested, drink large amounts of water, induce vomiting. Seek medical attention promptly.

#### Storage:

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials, food and drink.
