

## DATA SHEET

# LAUNDRY DESTAINER - 12% SODIUM HYPOCHLORITE OXIDIZING DETERGENT ENHANCER

### Product Description:

Enhances the performance of laundry detergent with sodium hypochlorite to get white fabrics their whitest.

### Specifications:

Color: Yellow  
Odor: Chlorine  
pH: 12  
Physical State: Liquid  
Dilution: Titrate

### Available In:

55 Gallon Drums	Item# 98PBD55
15 Gallon Drums	Item# 98PBD15
05 Gallon Drums	Item# 98PBD05

### Directions:

**AS A LAUNDRY BLEACH:** Sort laundry by color and fabric type. Only use Laundry Destainer on bleachable fabrics. Add Laundry Destainer during the first rinse cycle. Add 2-4 oz. per 50 lbs of dry laundry depending on severity of soil. Towards the end of the first rinse cycle, check to ensure the available chlorine level is between 50-150 ppm. Adjust accordingly. If chlorine level is too low, adequate stain removal may not be achieved. If chlorine level is too high, fiber damage may occur. **AS A LAUNDRY PRE-SOAK:** Add 1 oz. (1/8 cup) of Laundry Destainer per gallon of cool water. Submerge entire garment and soak for 5 minutes. Wash pre-soaked garment immediately using detergent and destainer. **Note: Do not use on colored fabrics. Not recommended for use on wool, silk or microfiber. This product degrades with age. All recommendations made above are based on an initial concentration of 12% Sodium Hypochlorite.**

### First Aid:

In case of contact: Skin: Wash with plenty of water for 15 minutes. Remove contaminated clothing and wash before reuse. Eyes: Immediately flush with large quantities of water, holding eyelids open for at least 15 minutes. Seek immediate medical attention. Ingestion: Give large quantities of water. DO NOT induce vomiting. If vomiting occurs spontaneously, keep head lower than lungs to prevent aspiration of chemical into lungs. Call a physician immediately. Never give anything by mouth to an unconscious person. Inhalation: Remove to fresh air. In all cases, seek medical attention if irritation persists.

### Storage:

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Use appropriate containment to avoid environmental contamination. Do not store near acids. Keep away from reducing agents. Keep away from combustible material. Keep container tightly closed and sealed until ready to use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.
