

# DE-FOAM-CONCENTRATED DEFOAMER

## Product Description:

De-Foam is a liquid, concentrated silicone formula developed to quickly eliminate foam in automatic floor machines, wet vacuum and carpet & upholstery cleaning equipment.

## Features:

Quickly removes foam in the recovery tank of hot or cold water extractors, automatic scrubbers, shampooing equipment and wet/dry vacuums. All raw materials used for production undergo a thorough quality control process before being used for manufacturing high quality products.

## Specifications:

Color:	Opaque
Odor:	None Added
pH:	7
Physical State:	Liquid

## Available In:

5 Gallon Pail	Item# 98PDF05
30 Gallon Pail	Item# 98PDF30
55 Gallon Pail	Item# 98PDF55
4x1 Gallon Bottles	Item# 98PDF0G
12XQTS Bottles	Item# 98PDF0Q

## Directions:

De-Foam is most effective when applied over the entire surface where foam will be present. For example, it is better to spray or apply with a cloth or sponge to the sides and bottom of a vacuum tank, than to pour De-Foam into the bottom of the tank. If the vacuum system is sealed, spray or pour De-Foam Concentrate through vacuum hose.

Use one ounce of De-Foam per gallon capacity of pick up tank. If carpet or surface has excessive surfactant, more De-Foam will be needed. De-Foam can also be diluted 8:1 with water and used in a spray bottle for surface defoaming.

## First Aid:

In case of eye contact, flush with water for 15 minutes while holding eyelids open. Seek medical attention if required.

## Storage:

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Use appropriate containment to avoid environmental contamination.
