

MIRAGE-21% DURABLE HIGH SPEED FLOOR FINISH

Product Description:

Mirage is a unique blend of Acrylic Polymers that provides exceptional floor finish performance features- excellent resistance to dirt, scuff and black heel markings. Mirage is not easily removed with aggressive cleaners. It's unique toughness enables it to outlast it's competition in a variety of applications, including excellent gloss retention where High-Speed buffing is less frequent. Mirage is recommended for use on all types of resilient tile, linoleum, terrazzo, quarry tile or sealed wood. Apply over appropriate floor sealer, either MVP (sealer) or Tuf-Kote (high solid acrylic sealer) as directed.

Features:

Excellent resistance to dirt, soil and is virtually impervious to black heel marks and scuffing. All raw materials used for production undergo a thorough quality control process before being used for manufacturing high quality products.

Directions:

1. Floor must be cleaned and free of any other floor maintenance products, either stripper or finish. If floor is old and porous, apply Tuf Kote as a sealer first according to directions. Otherwise, use MVP to seal the floor. Sealer must be dry before applying Impress finish.
2. With a clean mop or applicator, apply 2-3 coats of finish (wait for drying between coats).
3. With finish completely dry, buff with High-Speed buffer and aqua pads.
